1 LOGGING IN TO NAVINET

Logging in to NaviNet

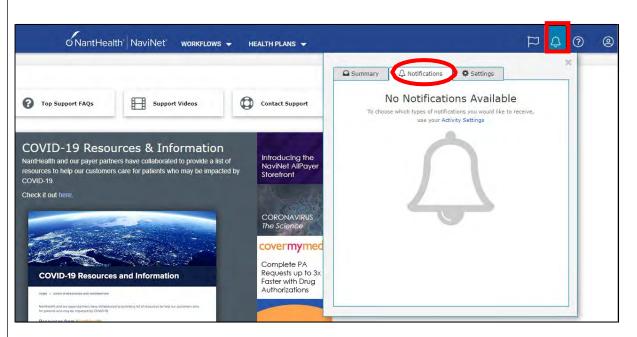

Logging in to NaviNet (cont'd)

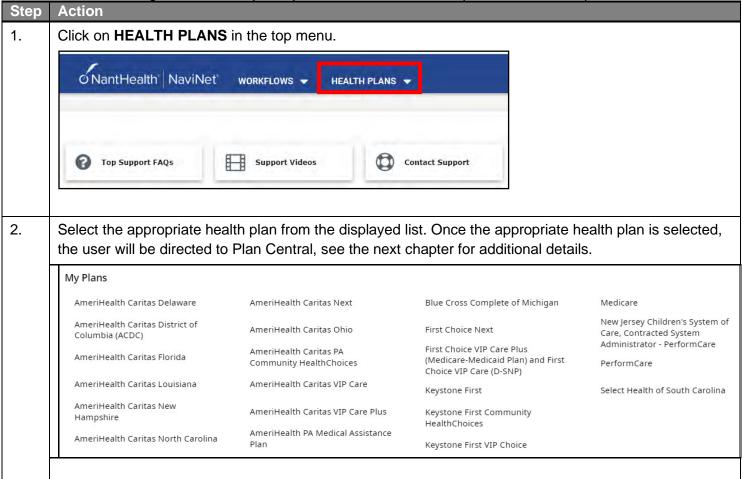

Notifications are an important part of the communication process between the health plan and the provider. Users can opt to receive notifications whenever a request is sent from the health

plan to the provider. Notifications can be managed from the bell icon in the top right banner on the home page. Additional information regarding notification settings can be found in the Request For More Information (RFMI) chapter.

Logging in to NaviNet (cont'd)

The NaviNet Home Page is not health plan-specific. To locate a health plan, follow the steps below:

2 PLAN CENTRAL

Plan Central Overview

Plan Central is the health plan specific homepage.

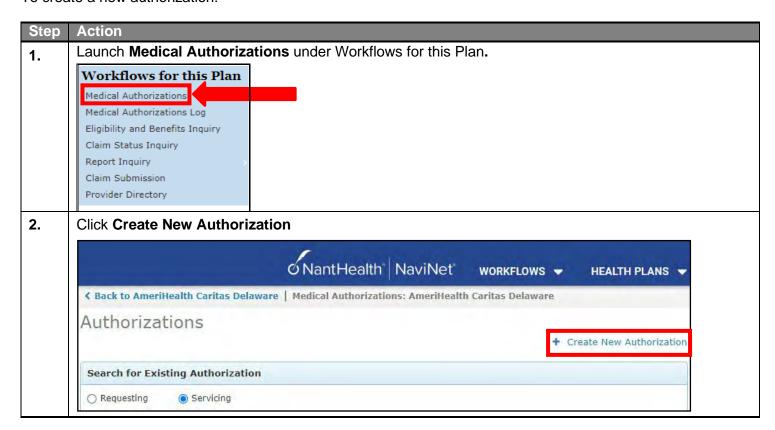

| Plan Central | Topic | Description |
|-------------------------|----------------------------|---|
| Workflows for this Plan | Plan specific options | Various functionalities are available to include initiating medical authorizations, inquiries, etc. |
| FAQs | Frequently Asked Questions | Includes answers to questions frequently asked. |
| Training Videos | Training Videos | Instructional videos on system usage. |

3 CREATING A NEW AUTHORIZATION

Creating a New Authorization

To create a new authorization:

Creating a New Authorization (cont'd)

Creating a New Authorization (Cont d)

Enter patient search criteria information then select **Search**. The patient search screen allows the user to search by Member ID or Search by Name. If searching by name, the member's first name, last name, and date of birth (DOB) are required.

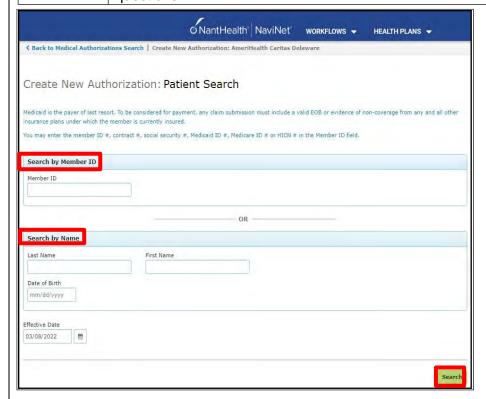

Action

Step

3.

If there are multiple matches based on criteria entered, the user will get a search results screen. On the search results screen, the user selects the appropriate member from the list returned. If there is an exact match, the user is taken to the pre-screening questions.

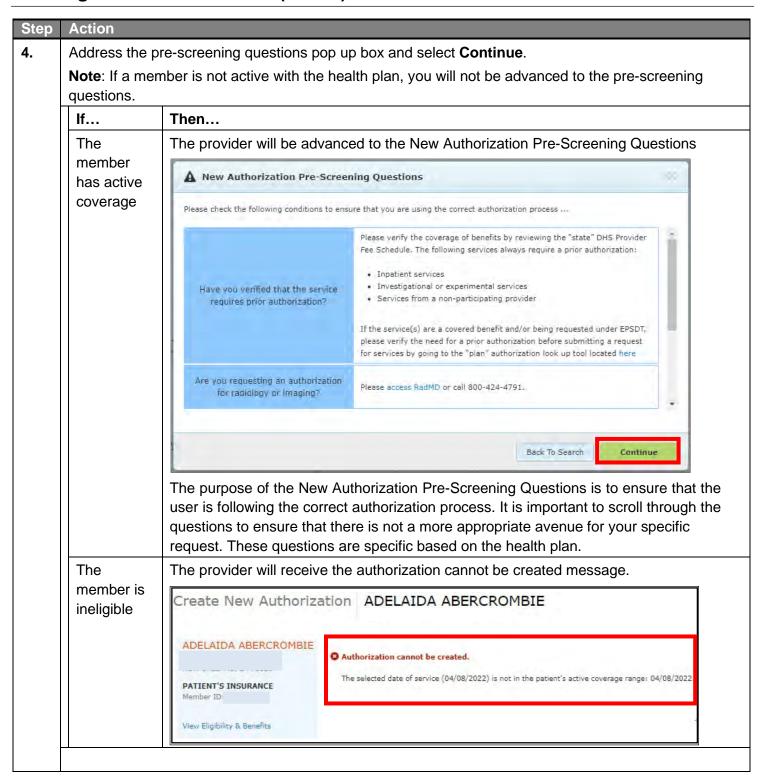

Note: If you enter an incorrect/invalid member ID you will receive the following:

Create New Authorization: Patient Search

Subscriber / Insured Not Found. Please Correct and Resubmit.

Creating a New Authorization (cont'd)

Creating a New Authorization (cont'd)

View Eligibility & Benefits

Step Action 5. Enter service type and place of service, then select **Next** View Eligibility & Benefits is available to view under the member's demographic information. Create New Authorization FRANKIE MOCHRIE Male born on 11/20/1981 (40 yrs old) FRANKIE MOCHRIE Service Type Select service type... Place of Service PATIENT'S INSURANCE Select place of service... Member ID: Active Coverage from 11/01/2019 - 12/31/2199 PRIMARY CARE PHYSICIAN

Eligibility & Benefits

can be viewed here.

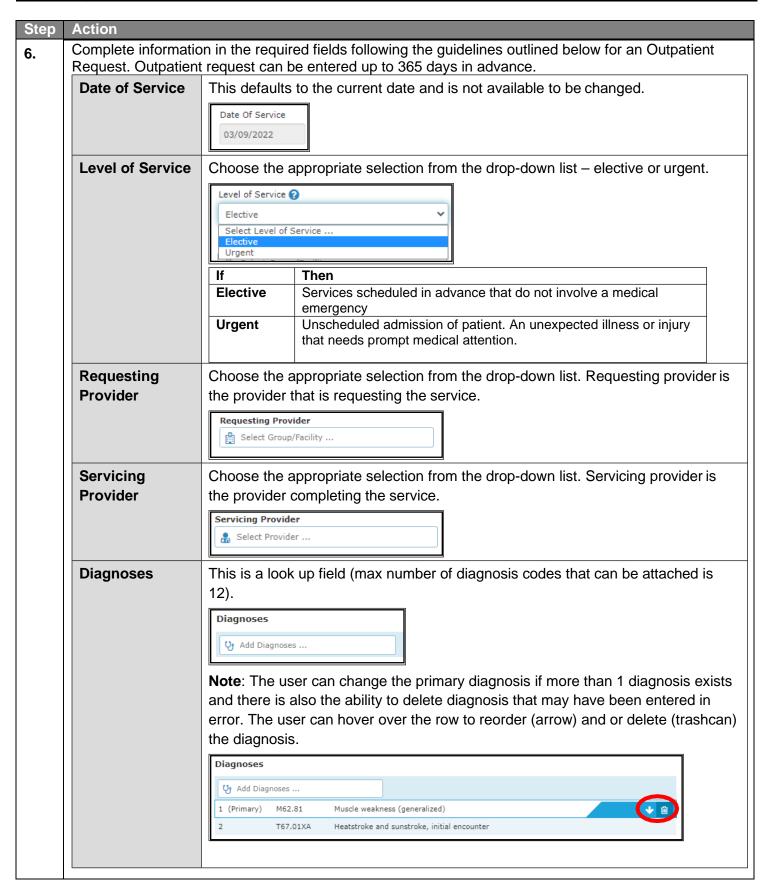

Service Type – Select the appropriate service type. Based on the service type selected the user may or may not be prompted to enter the place of service. For example, if the request is for home health care the user will not be prompted to select a place of service because the place of service is in the home. If the service type is physical therapy the user will be prompted to specify a place of service (comprehensive outpatient rehabilitation facility, home, independent clinic, off campus-outpatient hospital, office). If an inpatient service type is selected the user will not be prompted to enter a place of service on this screen.

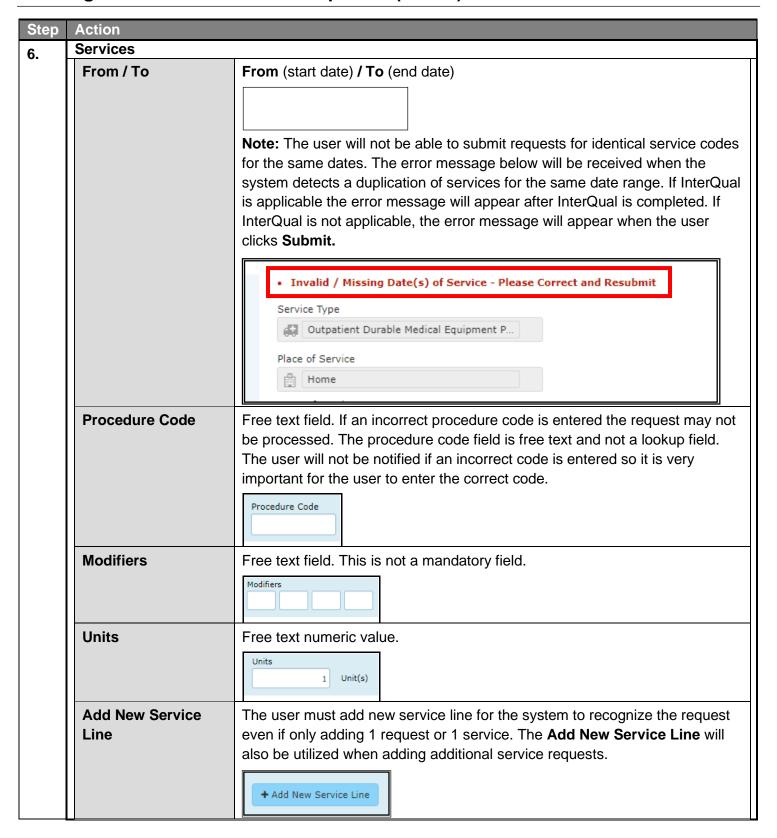

| If | Then |

Creating a New Authorization - Outpatient Request

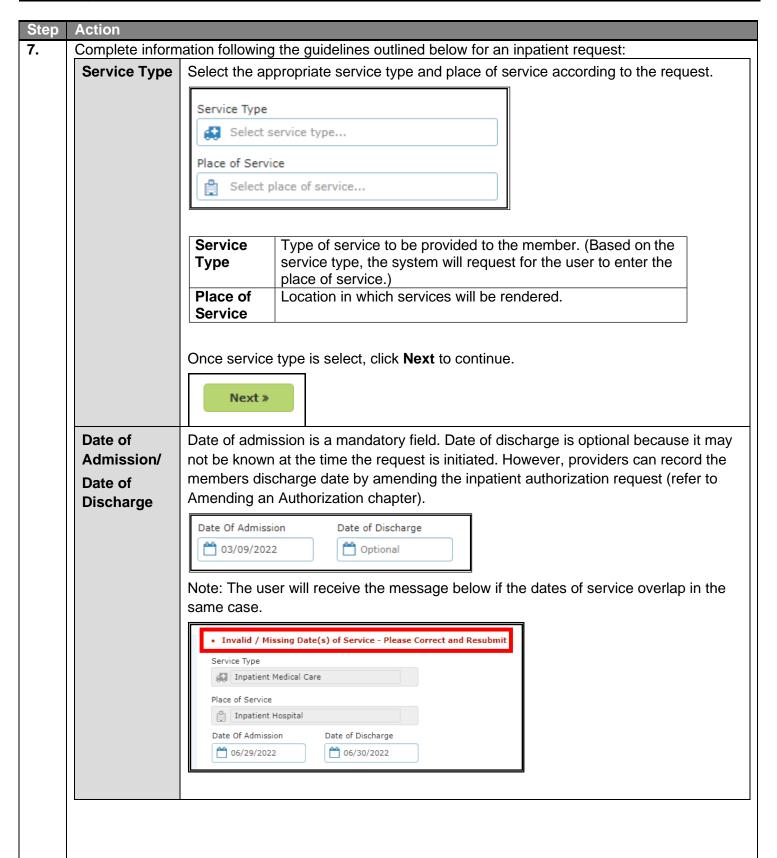

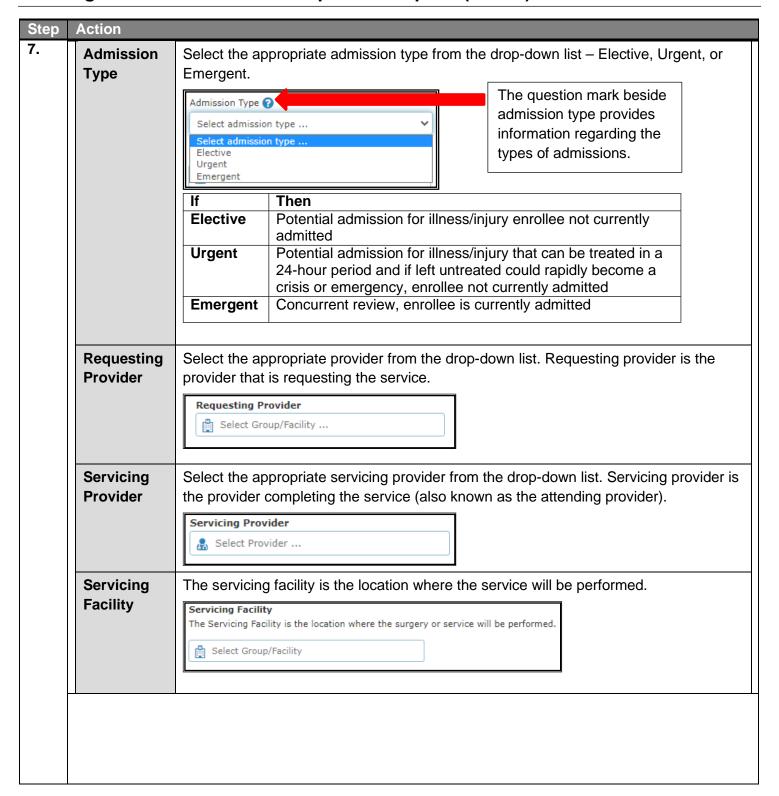

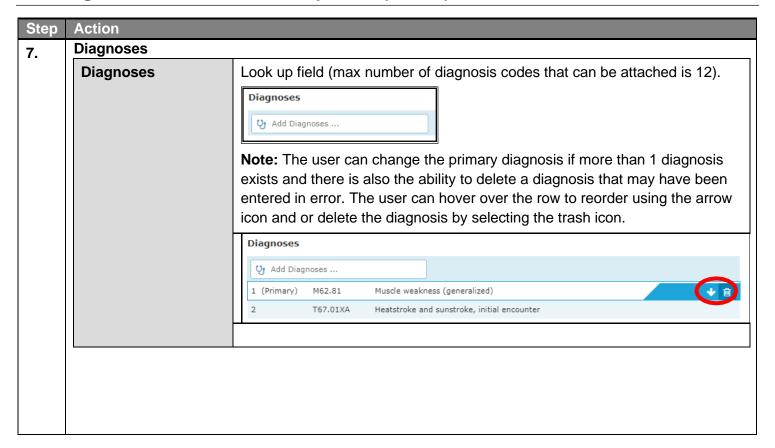

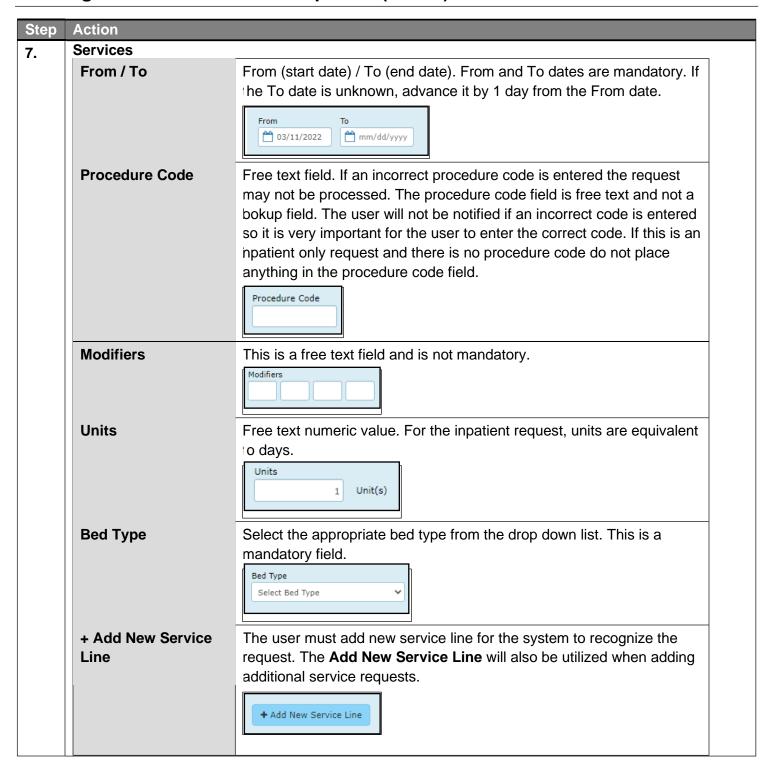

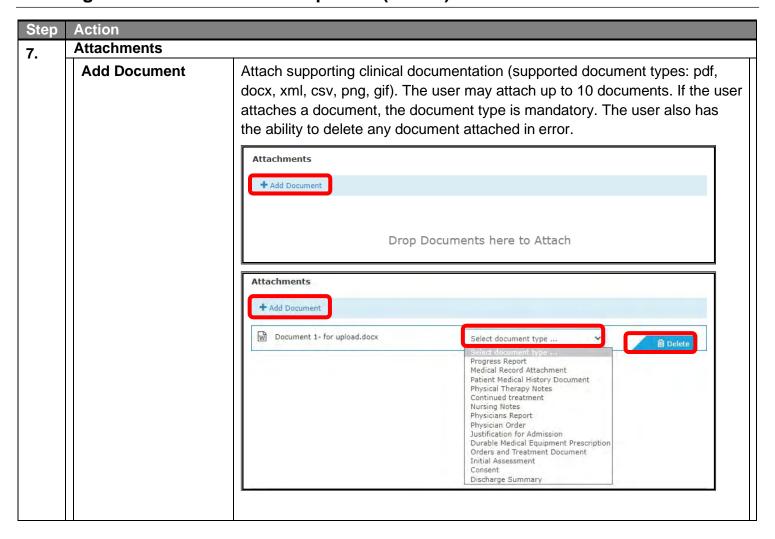

Creating a New Authorization – Inpatient Request

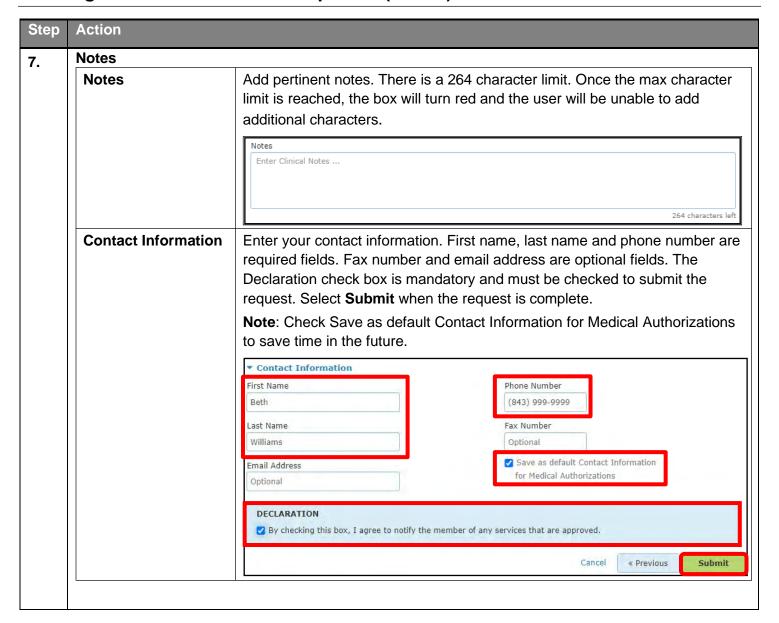

Creating a New Authorization – InterQual – Outpatient and Inpatient

Action

Step

If you need training or have questions regarding the use of InterQual criteria, please contact Change Healthcare.

After completion of the previous steps, when the user selects **Submit**, InterQual criteria may or may not launch. InterQual criteria is launched based on the diagnosis code and or the service code and if there are criteria to launch for the diagnosis code and or service code that is identified in the episode. If InterQual criteria is not launched after the user submits the request, the user may receive a status of pending or an automatic approval.

9. The message below will populate indicating the InterQual page is loading.

10. Once routed to InterQual, users will have two options 'Skip Review' or 'Continue to Review.'

| If | Then |
|--------------------|---|
| Skip Review | The user will return to the authorization details page and will be provided with a summary of the request along with the status and the pending authorization number. Note: If the InterQual medical review is skipped, the medical review is |
| | completed by the health plan. If additional information is needed to complete the medical review, a Request For More Information (RFMI) will be sent to the provider through the NaviNet Provider Portal. |
| Continue to Review | The user will be presented with the appropriate InterQual Subset and should complete the clinical questions/medical review prior to submission. Note: |
| | If the InterQual medical review is completed and the InterQual criteria is met, there is the possibility of an automatic approval. |

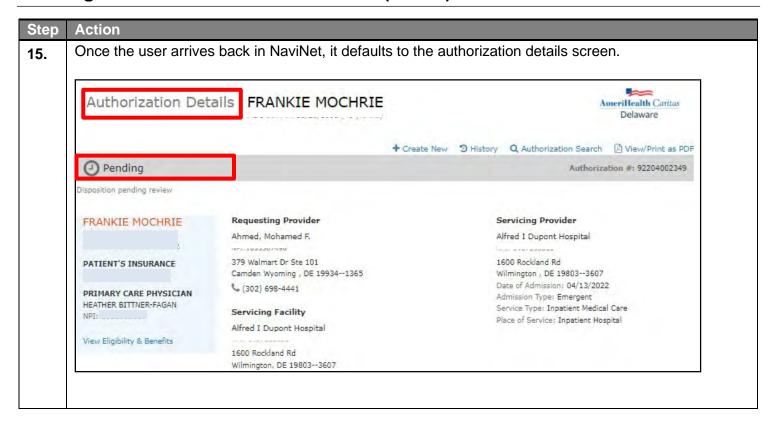

Creating a New Authorization - InterQual (cont'd)

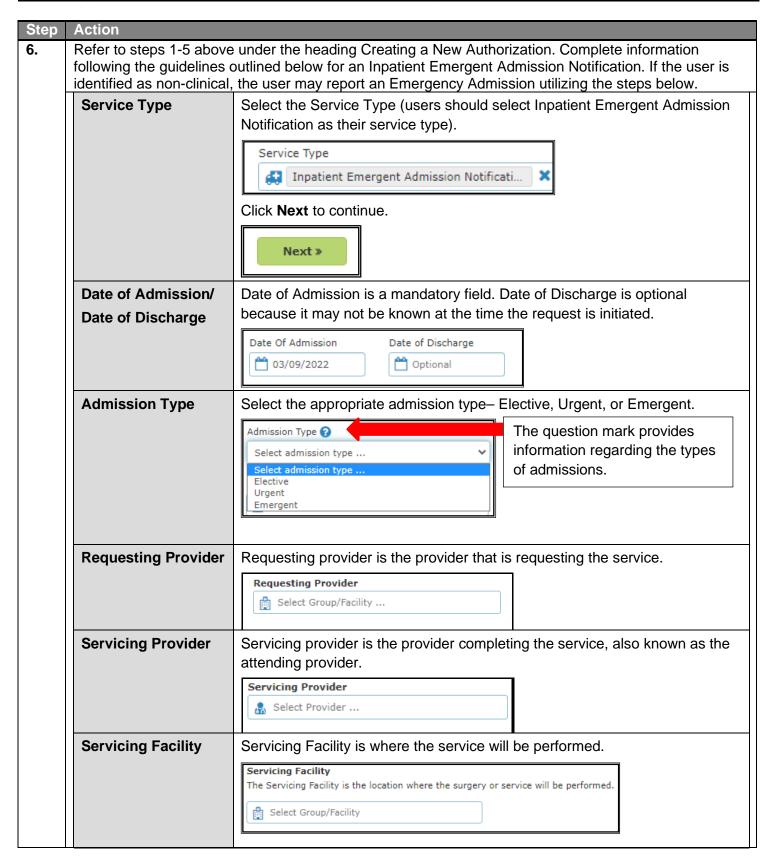

| рА | Action | |
|---|------------|---|
| | Outpatient | The system will determine the criteria set and subset based on the diagnosis code and the procedure code (if applicable). To begin the review, click on medical review at the bottom of the screen. |
| | | Answer the questions as they relate to the patient/member. |
| Inpatient The system will direct the user to a guideline selection page. Selemost appropriate guideline then click on medical review. MEDICAL REVIEW | | |
| | | Select the day on which you wish to complete the medical review then select the pertinent findings/interventions. |

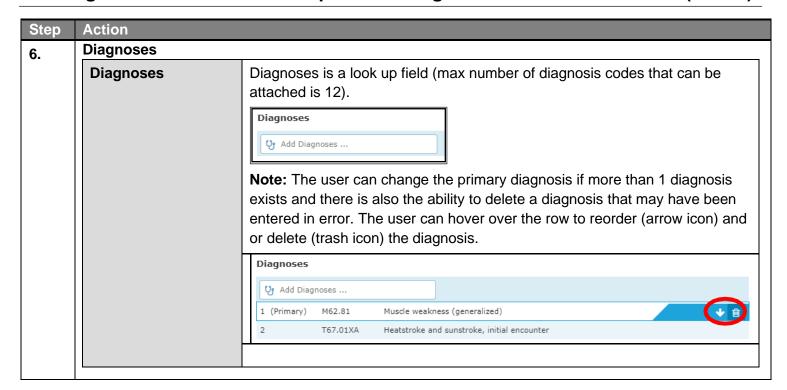

Creating a New Authorization - InterQual (cont'd)

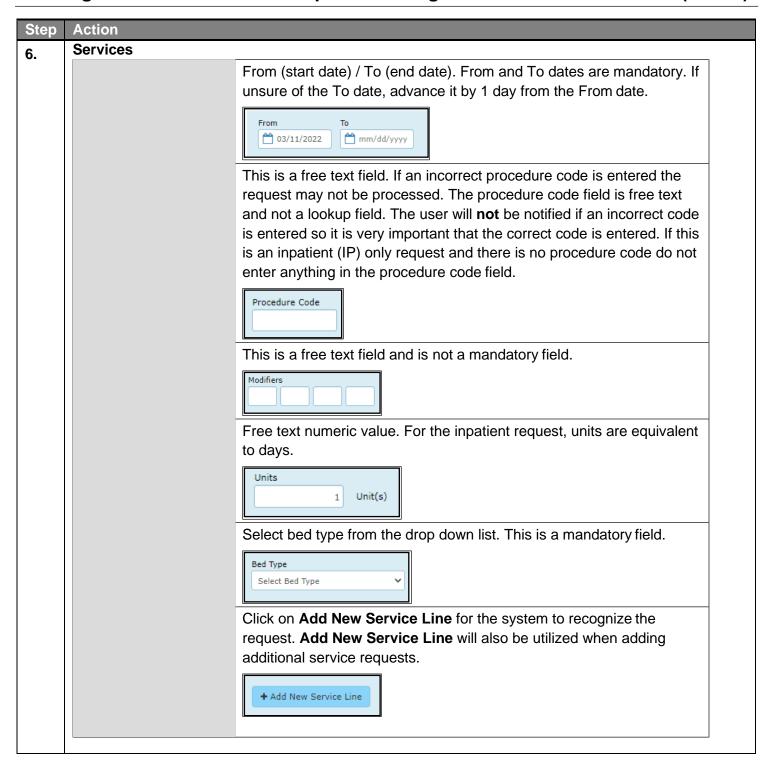

| Step | p Action | | | |
|------|---|--|--|--|
| 12. | At the end of the InterQual review | | | |
| | If | Then | | |
| | Q&A criteria is used (outpatient) | After all questions have been answered the no remaining questions message will display: Click view recommendations to continue. | | |
| | Decision tree is used (inpatient) | Address all pertinent findings/interventions based on the day selected for the review. At the end of the review the user will receive criteria met or criteria not met. Regardless of if the criteria meet or does not meet, the user should continue. | | |
| 13. | When the review is complete, click Complete , then select YES to continue. Completing the Medical Review will lock it from any further edits. Continue? | | | |
| 14. | | hat the user is being sent back to NaviNet from InterQual. | | |

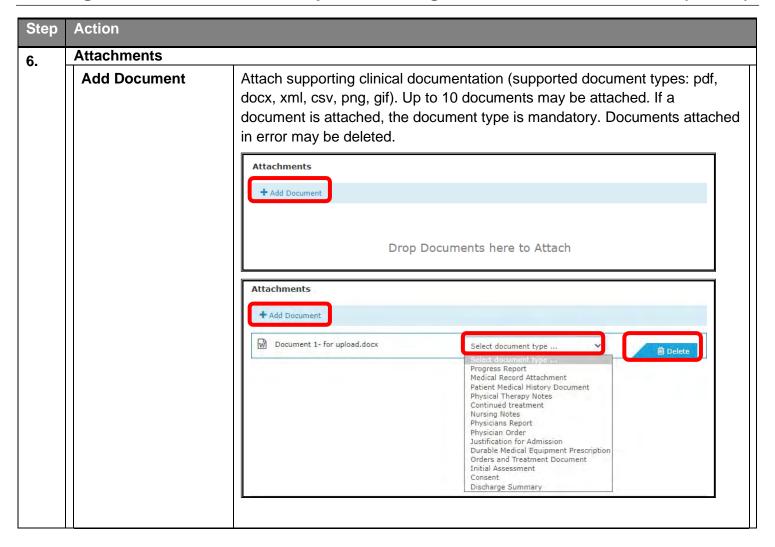

Creating a New Authorization - InterQual (cont'd)

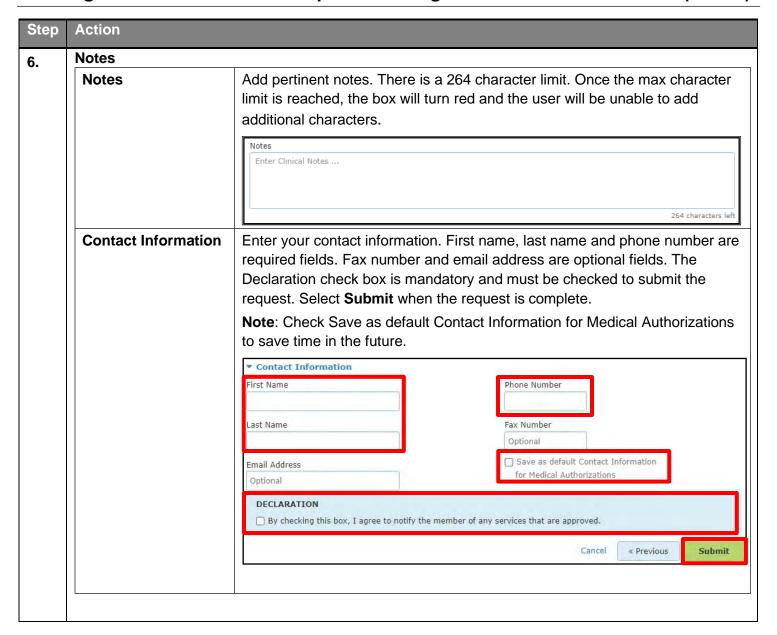

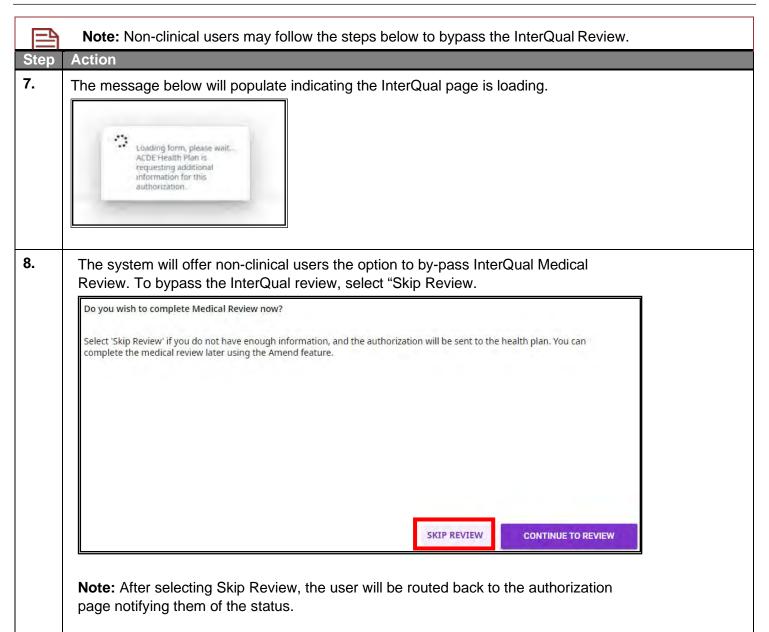

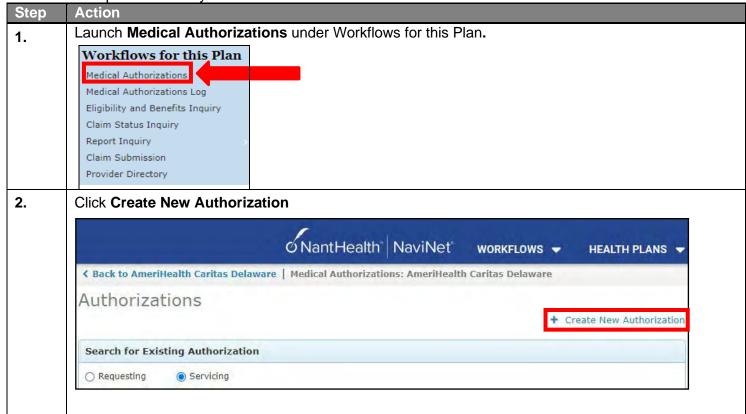

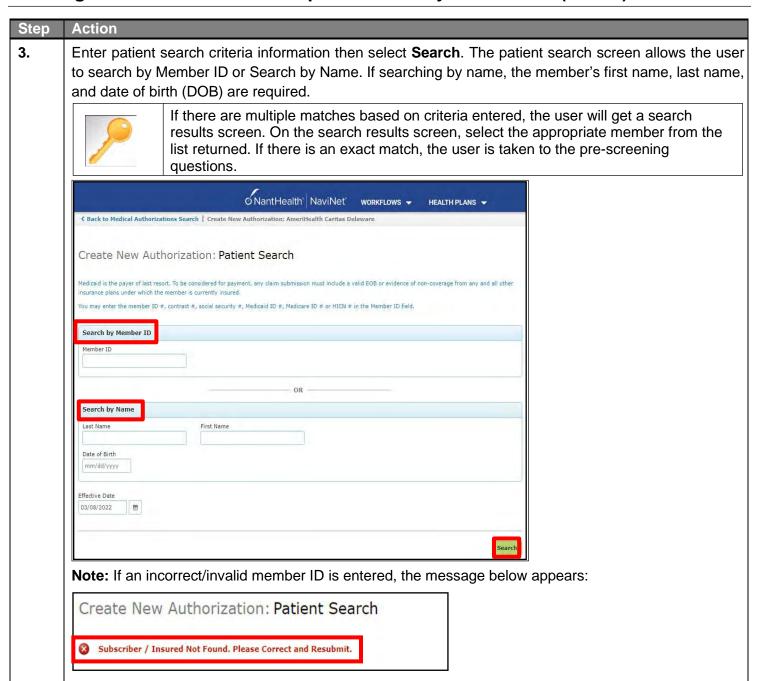

Creating a New Authorization – Inpatient Delivery Notification

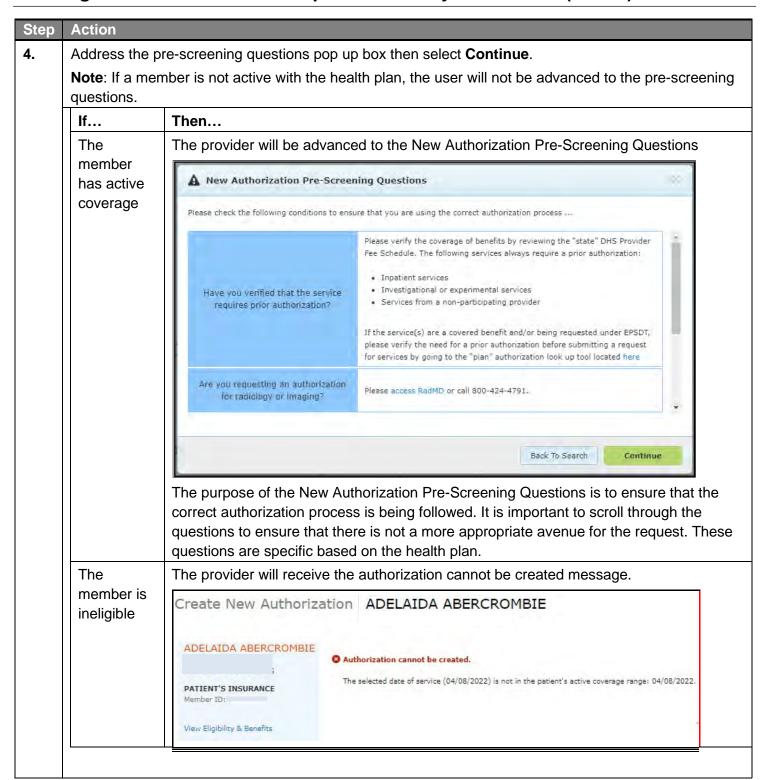

To create an Inpatient Delivery Notification:

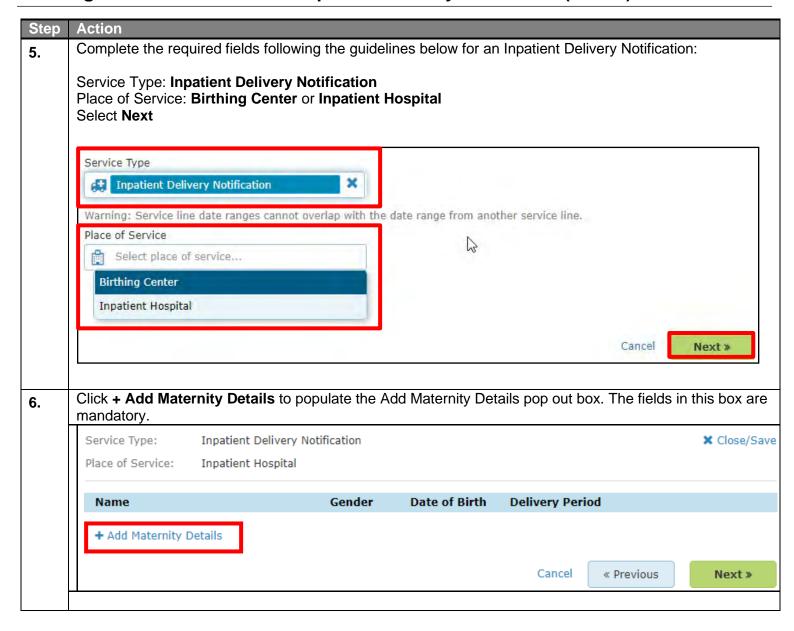

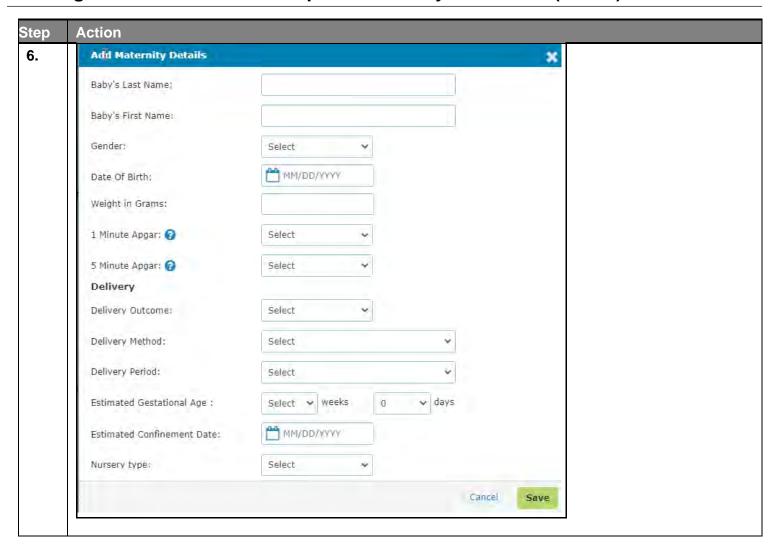

Creating a New Authorization – Inpatient Delivery Notification (cont'd)

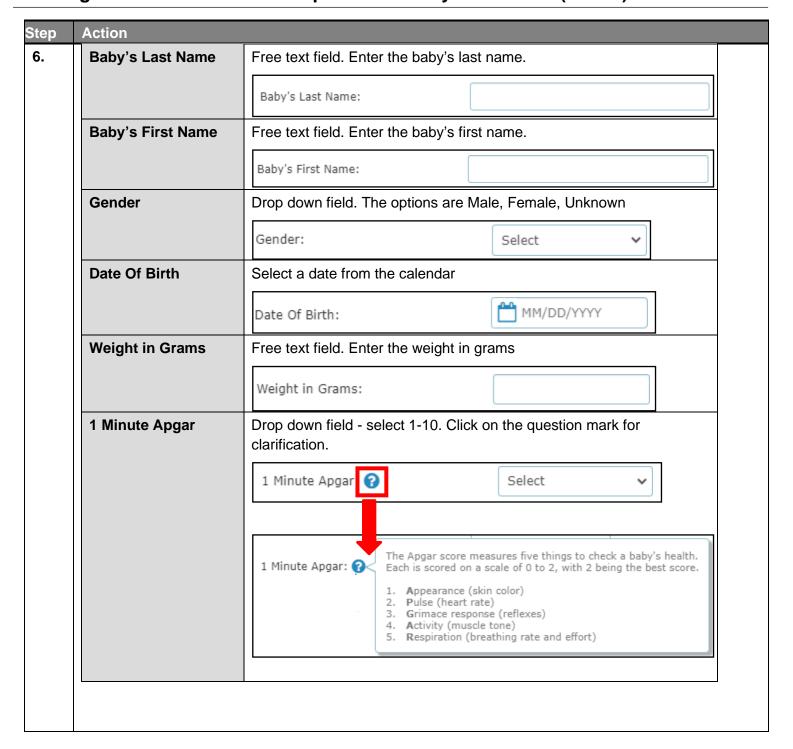

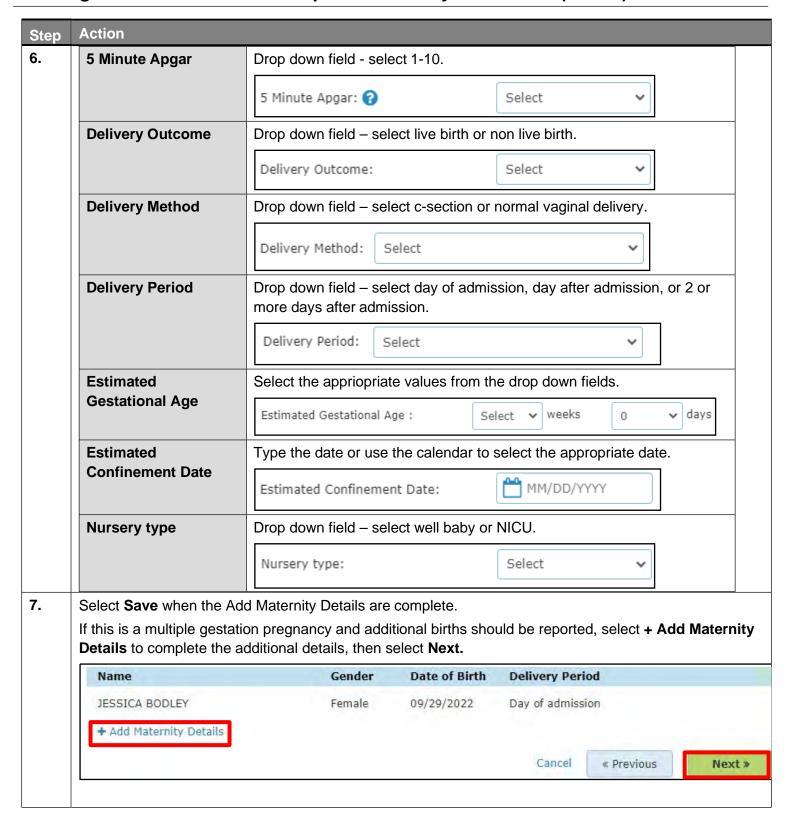

Creating a New Authorization – Inpatient Delivery Notification (cont'd)

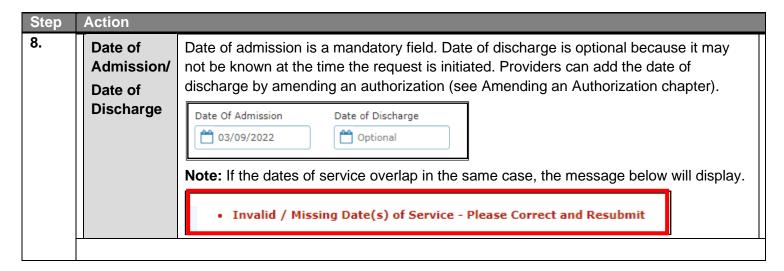

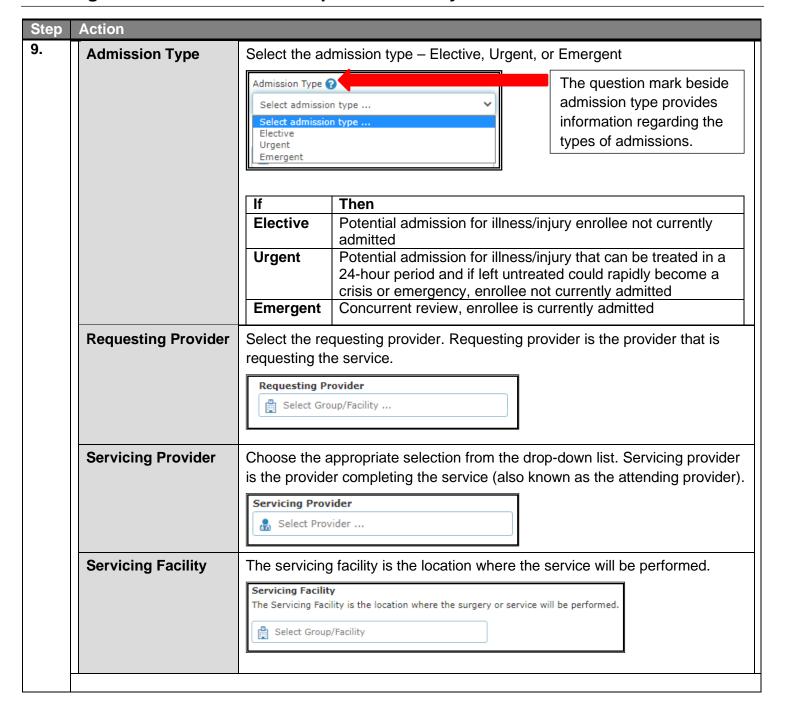

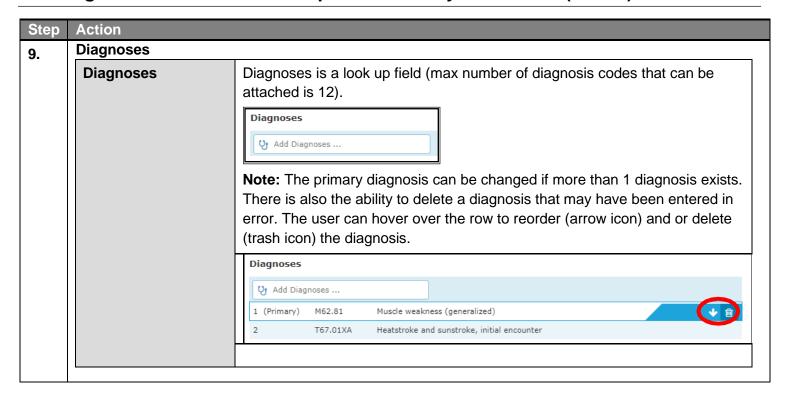

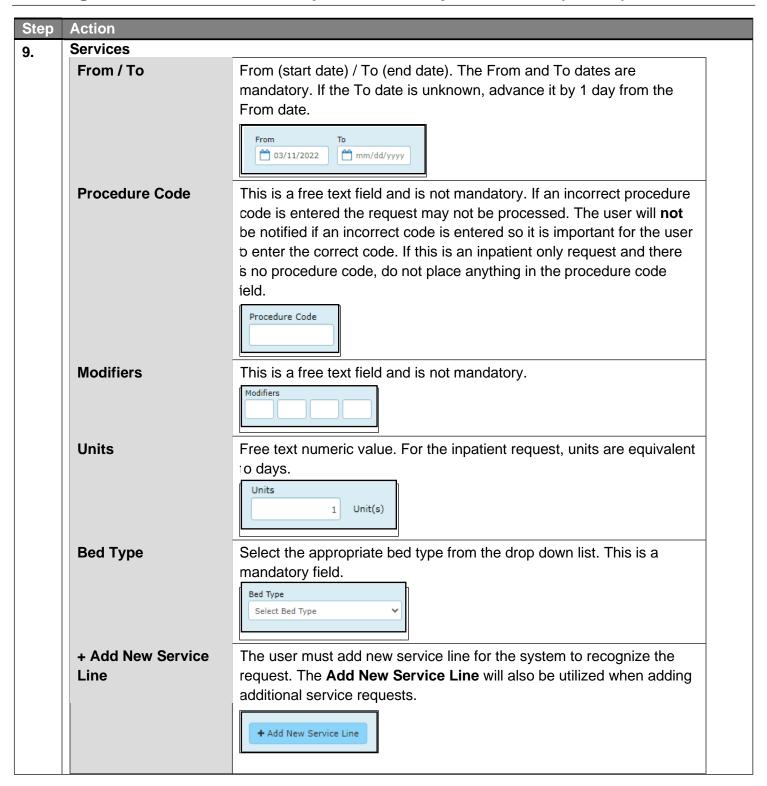

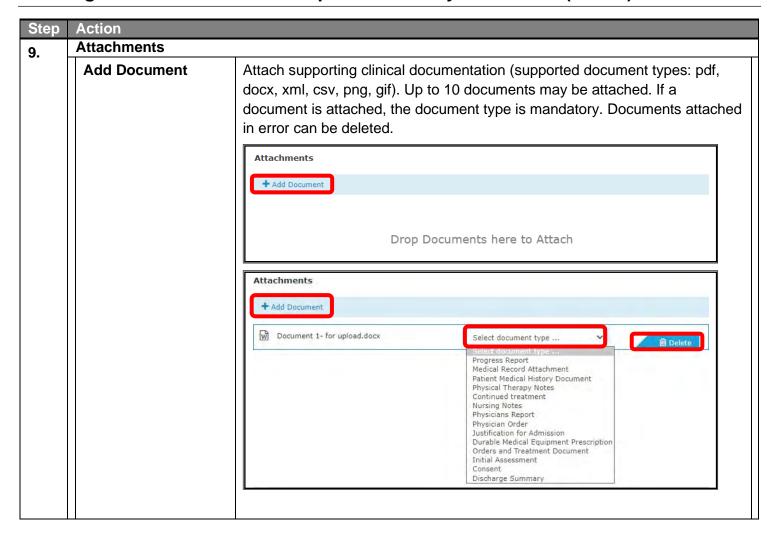

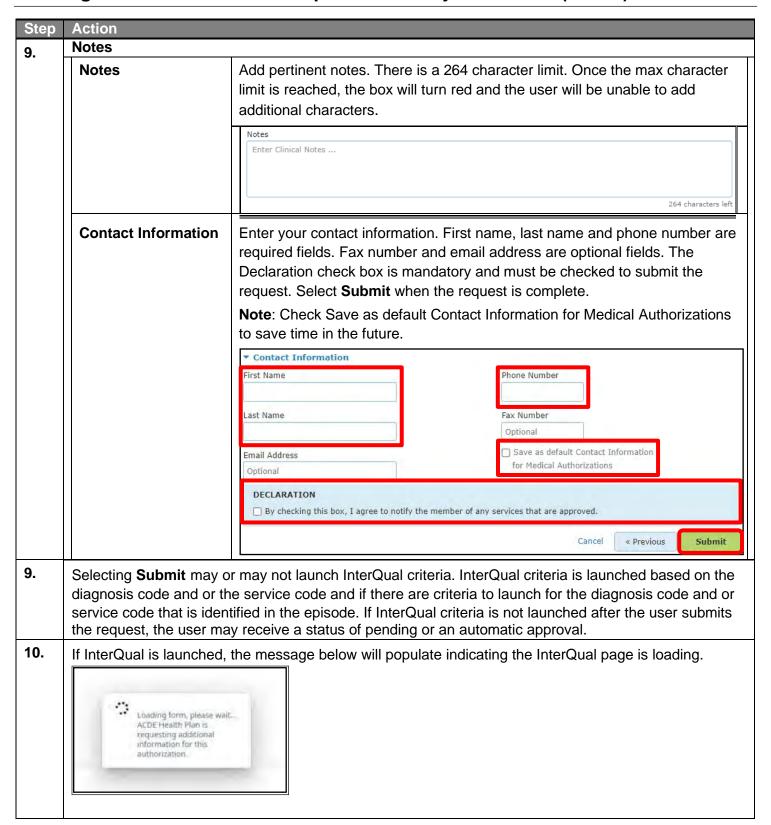

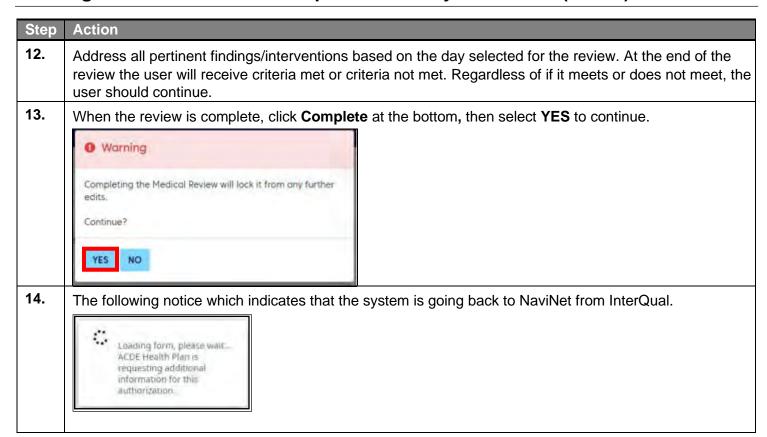

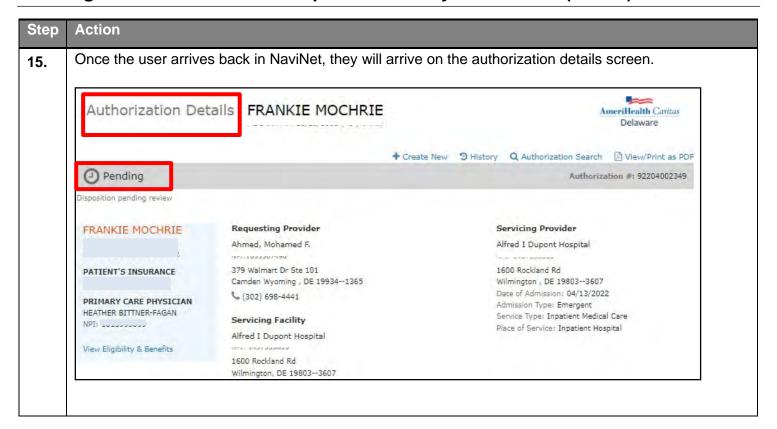

| Step | Action |
|------|---|
| 11. | The system will direct the user to a guideline selection page. Select the most appropriate guideline then click on medical review. MEDICAL REVIEW Select the day on which you wish to complete the medical review then select the pertinent |
| | findings/interventions. |

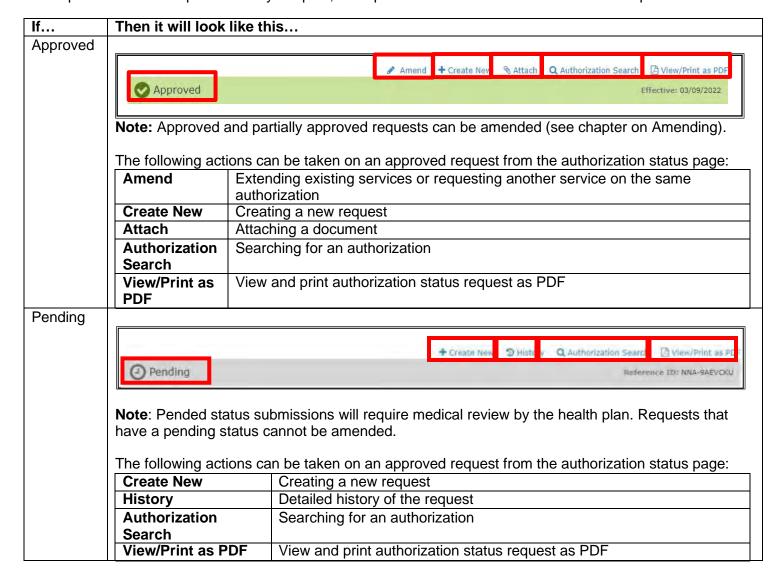

Authorization Status – Approved and Pending

The episode will be approved or be in a pending status when the request has been submitted to the health plan.

Note: Denials are not processed automatically, pending status submissions will require medical review by the health plan. If a denial is processed by the plan, a telephone call/letter will be made/sent to the provider.

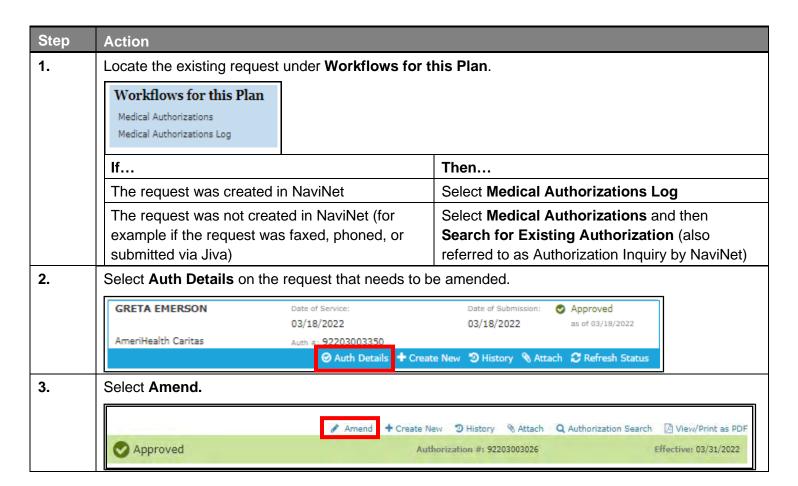

4 AMENDING AN AUTHORIZATION

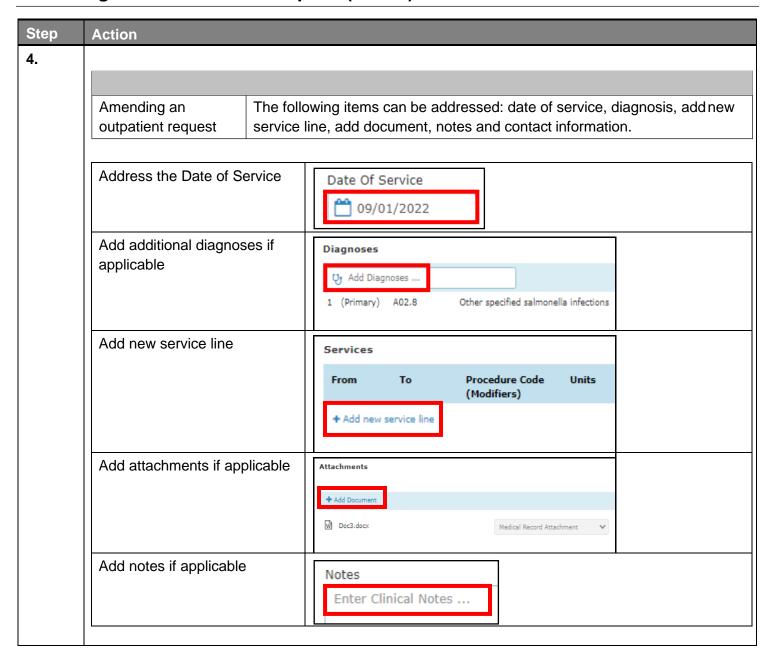

Amending an Authorization Request

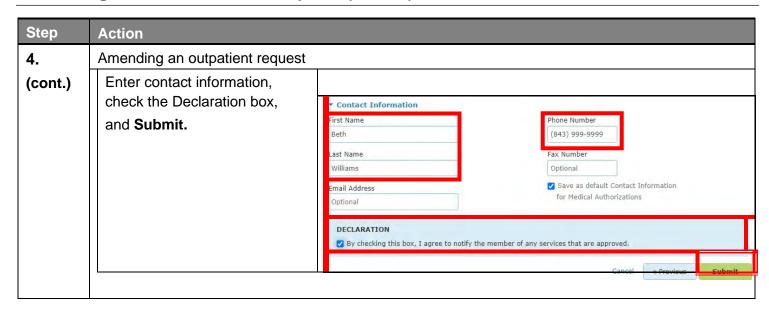

Amending a request is the process of extending existing services **or** requesting another service on the same authorization. Each time an amendment is made the note character limit will be reduced. Amending is only available to requests that have been approved or partially approved by the health plan. The maximum number of services that can be added to an authorization is 15.

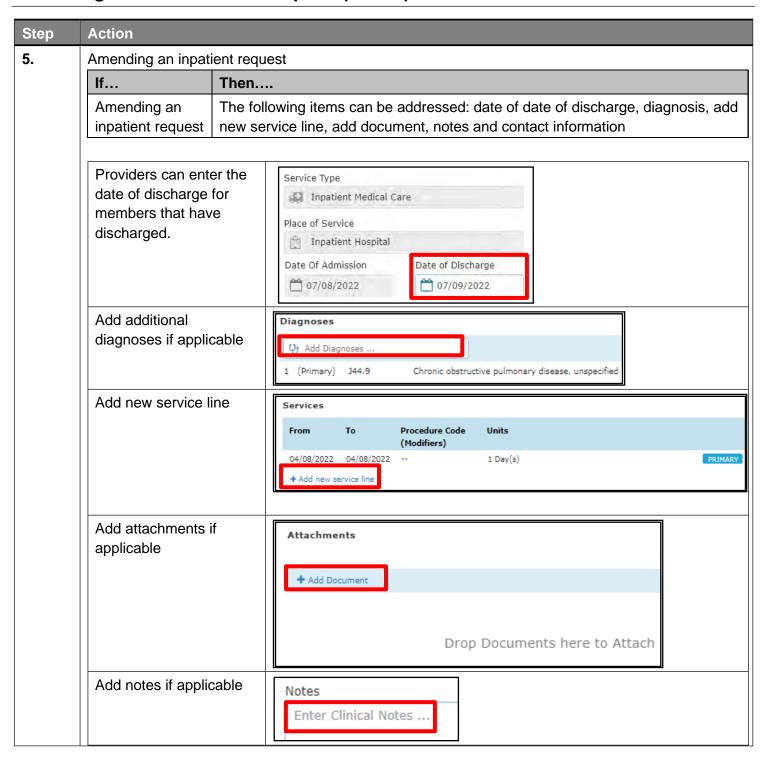

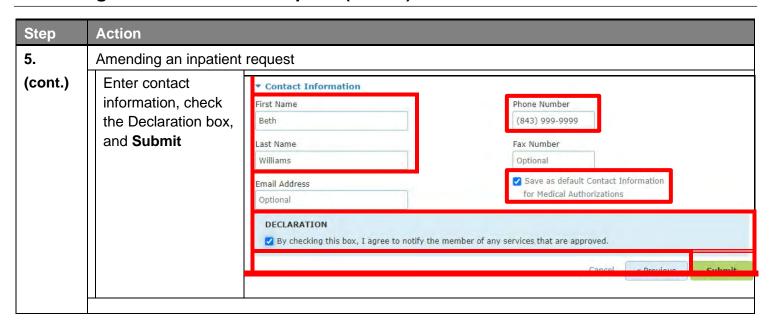

When making an amendment the user can add diagnoses, add services, add notes (if the maximum character limit has not been exceeded) and add documents.

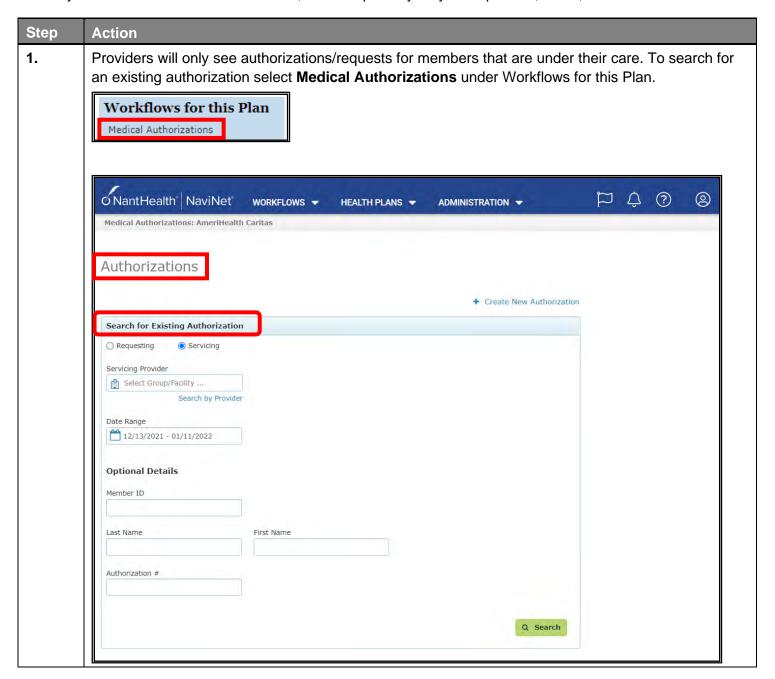

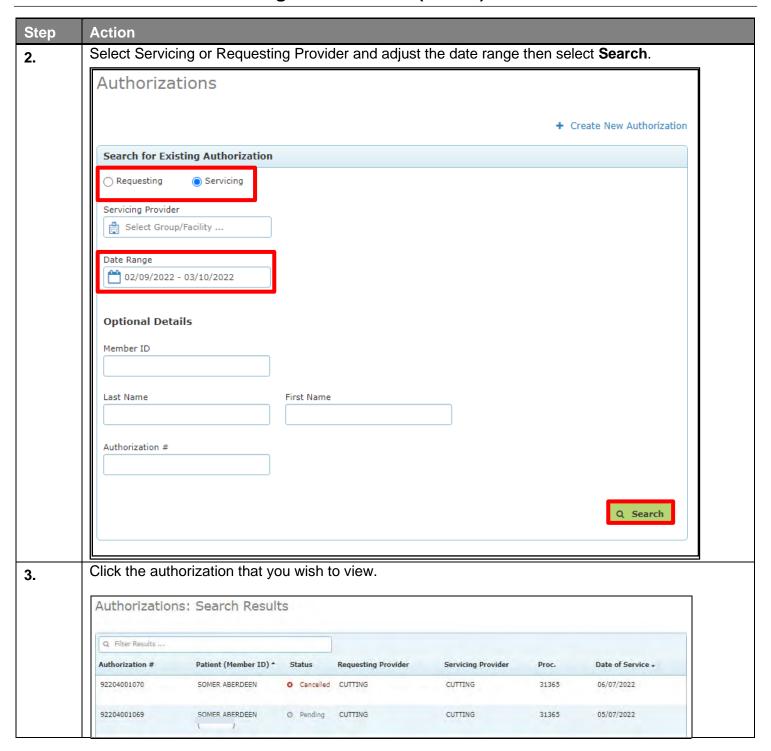

5 SEARCH FOR AN EXISTING AUTHORIZATION

Search for an Existing Authorization

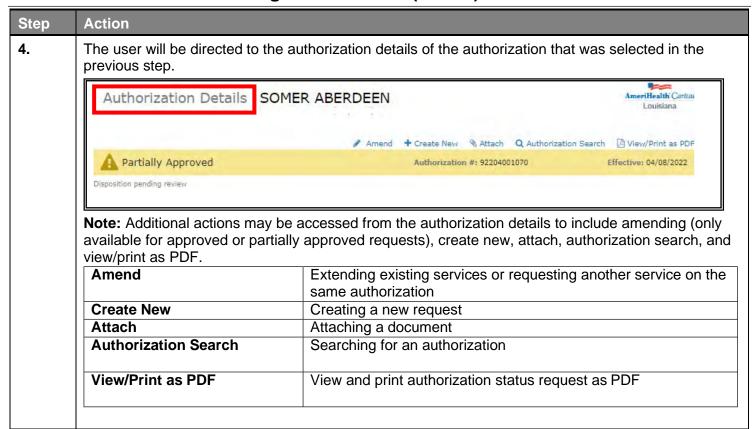

Search for an Existing Authorization (also known as Authorization Inquiry) is a way to search for authorizations that may not have been initiated in NaviNet, for example they may have phoned, faxed, or created in Jiva.

Search: Search for an Existing Authorization (cont'd)

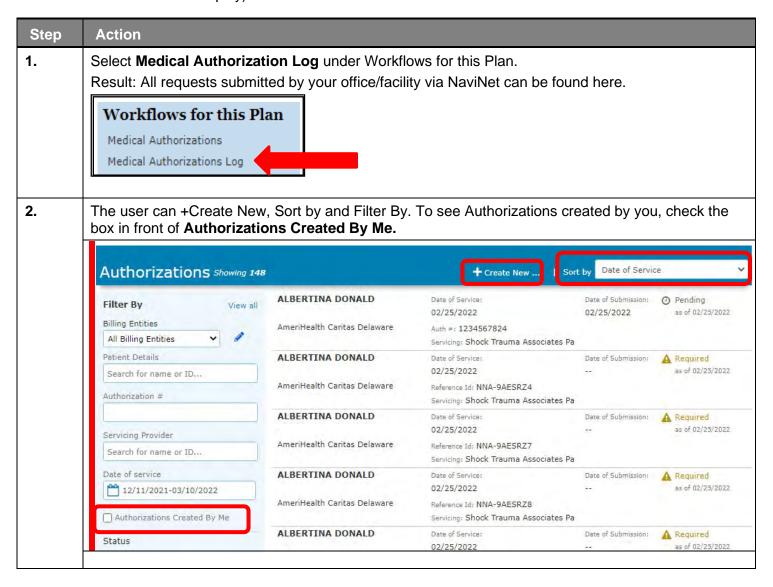

Search: Search for an Existing Authorization (cont'd)

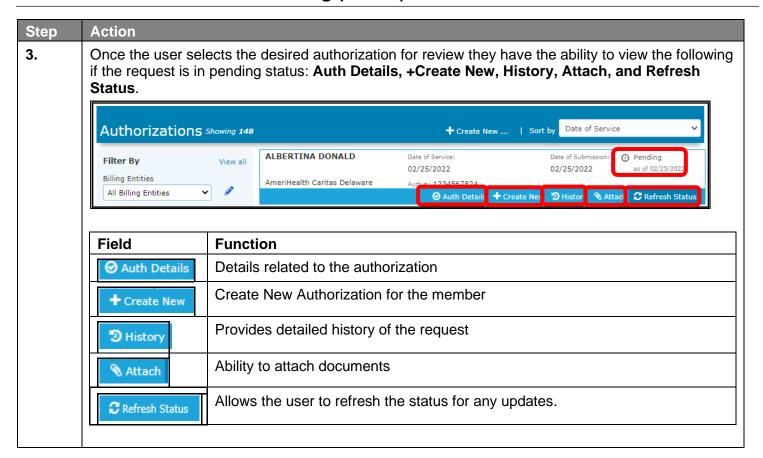

6 MEDICAL AUTHORIZATION LOG

Search: Medical Authorization Log

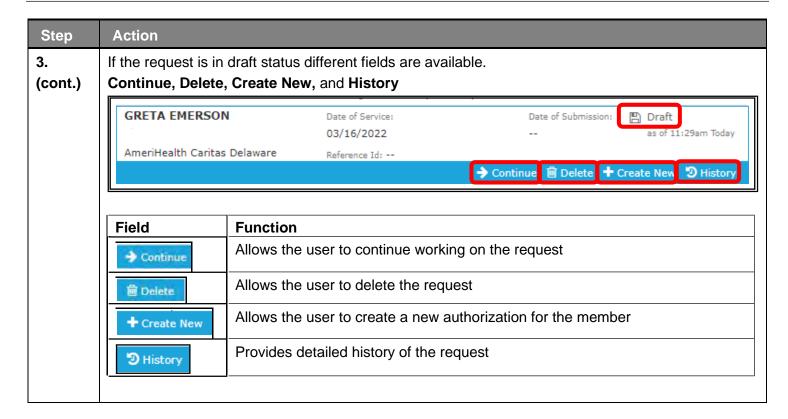

Only requests that have been submitted via NaviNet Open Medical Authorizations will appear in the Authorization Log. To see cases that were initiated outside of NaviNet, use Search for an Existing Authorization (sometimes referred to as Authorization Inquiry).

Search: Medical Authorization Log (cont'd)

Search: Medical Authorization Log (cont'd)

7 REQUEST FOR MORE INFORMATION (RFMI)

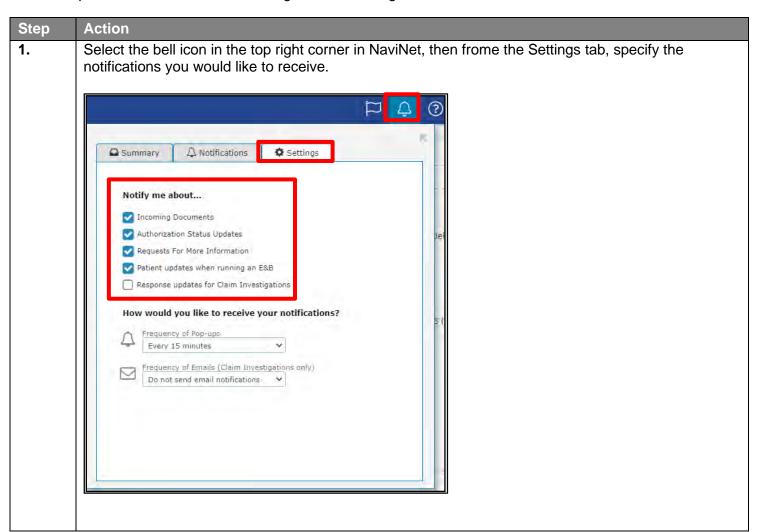

Request for More Information (RFMI)

Request for More Information (RFMI) is a feature that allows the health plan to request specific additional information to the provider if needed. Providers will only be able to have the RFMI ability for authorization requests that are pended or approved that are created in the NaviNet Provider Portal. Providers will be able to add notes and/or upload the documents in NaviNet Provider Portal for the pended authorization requests via the 'more information required' screen.

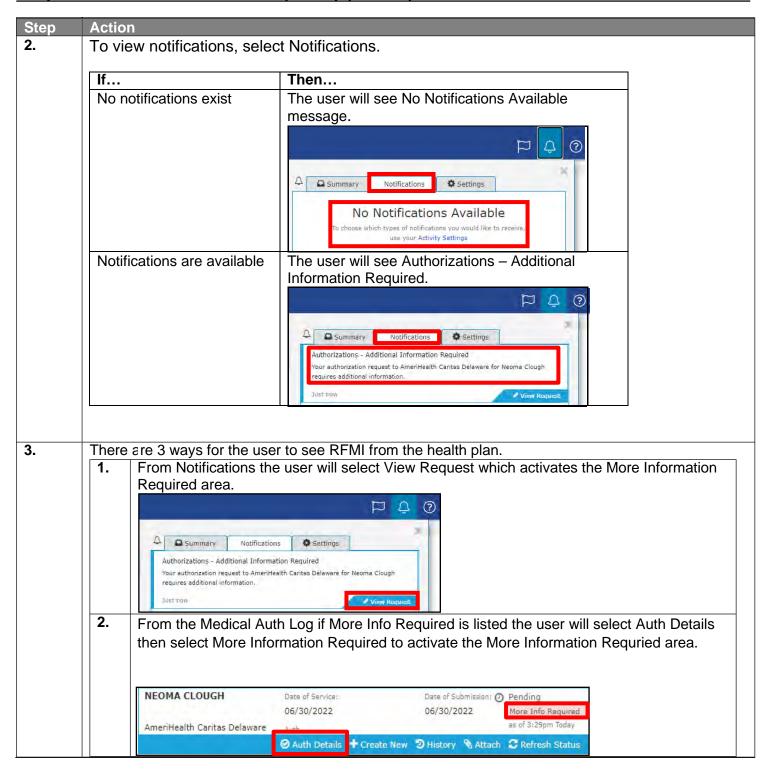

Notifications are an important part of the communication process between the health plan and the provider. Users can opt to receive notifications whenever a request is sent from the health plan to the provider. Notifications can be managed from the bell icon in the top right banner on the home page. It is important to note that notifications related to RFMI is not an immediate process. There is a slight delay as information travels from system to system.

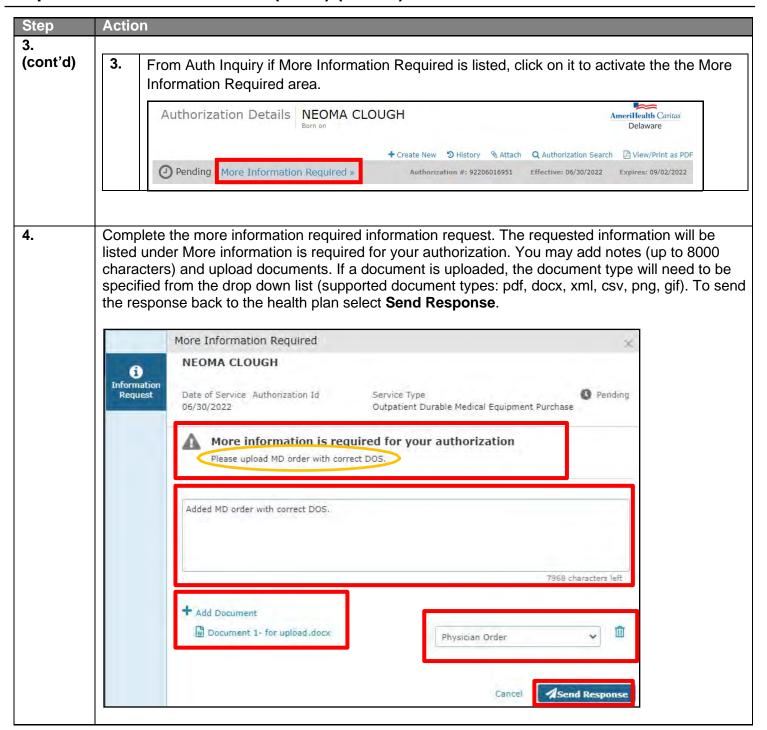

In NaviNet, users can opt to receive notifications whenever a request for additional information is requested from the health plan. Notifications can be managed under settings which is found when the bell icon is selected.
